

Text Notification Opt-in Consent Form

Rao Dermatology is in the process of offering Text Message notifications for appointment reminders and other patient care related information. This system will allow you to verify an appointment and to keep you informed of office and patient care information. If you choose to opt-in to this system please provide us with your text messaging number below. This information is only used for Rao Dermatology purposes and is governed by the same HIPAA protection as all other information. We will start utilizing this system once we have enough text opt-ins from our patients' parents/guardians. Standard text messaging rates apply as provided in your wireless plan (contact your carrier for pricing plans and details).

Your Name: _____
